### Snakes in the Ganga

In September 2022, Rajiv Malhotra's latest book "Snakes in the Ganga: Breaking India 2.0" (SITG) was released amidst much interest and enthusiasm from people across various domains spanning academia, tech industry, legal domain and mass media. Co-authored with Vijaya Viswanathan this is a one-of-a-kind book which unveils uncomfortable truths concerning India's vulnerabilities.

The authors, through pain-staking research expose how there is an intense warfare going on right now against India's integrity, and how it is the work of a well-

orchestrated global machinery driven by a new ideology.

Popularly called the Woke movement and known as Critical Race Theory in US academia, the mission is to dismantle Indian civilization and heritage by waging an uncompromising war against India's government, educational institutions, culture, industry, and society. Harvard University is Ground Zero of these social theories developed in collaboration with Indian scholars, activists, journalists and artists. This represents a clear and present danger to India's sovereignty and national security.

#### **Why this book is important: Message from Rajiv Malhotra**

Namaste! After 75 years of Indian independence, it seems like we have independence only in name. Our minds still remain deeply colonized and we are actively building institutions to ensure that the future generations also remain colonized.

Our new book, 'The Snakes in the Ganga', explains how. In this book we trace how atrocity literature in the name of scholarship produced in elite western universities is recklessly mapped upon the Indian ecosystem with devastating consequences on the ground.

Snakes in the Ganga exposes the scholarship behind the Breaking India forces that you see on the ground. It is vital

that we understand the nuances and the complexities of the *kurukshetra* in order to save the civilizational heritage of Bharat.

Namami Gange!

### Dattatreya Hosabale launches book Snakes in the Ganga

Eminent Indian social worker and General Secretary of the Rashtriya Swayamsevak Sangh, Dattatreya Hosabale, launched the book. He highlighted the importance of the book and explained how the book promoted the interest of real India. [Video](#).

### Explainer Videos on SITG

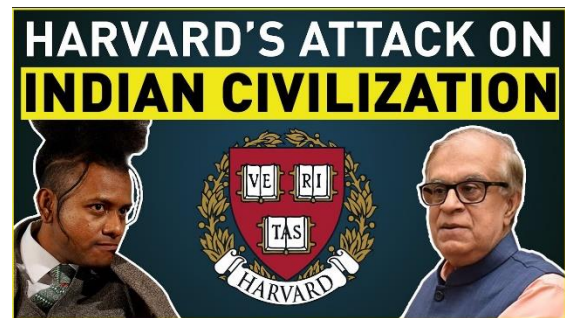

Revealing the nest of snakes

Many Indians are under the impression that India is the *Vishwa Guru* of the world, however the sad reality is that India does not control its own narrative. SITG exposes how Harvard University controls the narrative of India globally. Is Harvard University the new *Vishwa Guru*?

Harvard is the center of power in Liberal Arts and Humanities. Its global brand spreads its ideology on human rights, social justice, religious freedom, topics like whether India is a democracy or not, minority rights and so on. Harvard churns out the latest theories and policies on India some of which are existential threats to India. Harvard is training a new, large sepy army of breaking India forces. [Video](#).

### Harvard's attack on Indian Civilization

Suraj Yengde at Harvard Kennedy School is the leading proponent of the Afro-Dalit identity. He comes from a school of thought which believes that everything wrong with India is due to Brahmins, who according to them, did not earn any resources through merit but by looting.

According to Yengde there has been a genocide against Dalits since independence. According to their thesis, upper castes should be treated as criminals, not based on any individual things somebody may have done, but because as a community their ancestors were criminals. [Video](#).

### Harvard's Bias Towards China

In contrast to Harvard's discussions on India, Harvard maintains a different posture on China. Often Harvard is seen praising China for its accomplishments.

Harvard which is ostensibly touch bearer of human rights the world over, looks the other way when it comes to China. A case in point is the Tibetan freedom struggle, which has fallen out of favor in the West.

This is in contrast with the way Harvard scholars routinely focus on attacking India. The most favored topics on India at Harvard include criticizing the Citizenship Amendment Act of 2019, the removal of Article 370 on Kashmir, Hindu chauvinism, caste abuses, women's abuses, mistreatment of Muslims and so forth.
